Teaching Kids to Code

Now delivered online or face-to-face

- *1 or 2 sessions*
- *In or after-school hours*

Digital Technologies Professional Development for Educators

Empowering teachers to integrate digital technologies into the classroom

Curriculum aligned and professionally delivered

Schools often tell us that they know how important a digital technologies education is for their students, but that the implementation of a program is the greatest challenge.

ScopeIT Education's Professional Development (PD) courses assist schools by building the digital literacy of educators, and helping teachers to establish their own digital technologies strategies and learning pathways.

No prior knowledge needed

Teachers will leave our workshops trained with relevant and up-to-date knowledge on how to integrate and use digital technologies in their classrooms.

Delivery: Virtually or face-to-face
Participants: Up to 25 per course
Required: Computer and internet

Course 1:
3D Printing and Design: Skills and Implementation
2 x 3hr sessions
